Hello to my colleagues, we are interested in CULTURAL HERITAGE and Europa Nostra as partners from Turkey and Albania. This online project is to create diversity about our origins to be common upon all participants locally & nationally & on European level and to protect world heritage.

Keywords : Cultural heritage, Europa Nostra, Unesco world heritage list, Ka201 & Ka101(NOW), historical Artifacts, ancient cities, museum education, knowing culture, history and our national values.

Project aim:

I am interested in the museum education, europa nostra and cultural heritage topic as an English teacher at a secondary school in Ankara, Turkey and i wanna create a project towards museum education for our students aged 12-15. Today i watched a youtube video related to EPHESUS/EFES located in İzmir, the city of Turkey and i was inspired of the illustration the video; this video tells us the old time of this ancient city. When we watch it we see that historical artifacts and places are vital for our cultural heritage. So I can be the leading citizens' movement to protect and celebrate Europe's cultural and natural heritage. We the teachers should be the voice of all who believe that cultural heritage is vital for our economy, our society, our culture, our environment, our well-being and for

the future of Europe. As Europeans – people who have lived here for generations as well as people who have newly arrived – we have to take full responsibility for transmitting this heritage in future.
